SPECIAL ISSUE

**7th International Conference on
Electron Beam Technologies (EBT 2003)
2–5 June 2003, Varna, Bulgaria**

Guest Editor:
G. Mladenov

AUTHORS	ARTICLES
G. Mladenov	359 Editorial
E. Koleva and G. Mladenov	361 Electron beam lithography developed resist profile improved by quality analysis
E.S. Valamontes and J.C. Statharas	371 Comparison of back-foil SXRF and EPMA for the elemental characterization of thin coatings
R. Iiyoshi, M. Hibino and T. Kitamura	377 Point cathode electron gun using electron bombardment for cathode tip heating: numerical study of heating condition for high brightness operation
K. Chirko, Y.E. Krasik, A. Sayapin and J. Felsteiner	385 Dense plasma formation on the surface of a ferroelectric cathode
Y.E. Krasik, J.Z. Gleizer, A. Krokhmal, K. Chirko, A. Sayapin, J. Felsteiner, V. Bernshtam and V.I. Gushenets	391 High-current electron sources based on gaseous discharges
V.A. Grushev, V.G. Zalesski, D.A. Antonovich and Y.P. Golubev	399 Universal plasma electron source
I.A. Krinberg and G.M. Mladenov	407 Formation and expansion of the plasma column under electron beam-metal interaction
E. Koleva	413 Electron beam weld parameters and thermal efficiency improvement
E. Koleva and I. Vuchkov	423 Model-based approach for quality improvement of electron beam welding applications in mass production

- V. Vassileva, G. Mladenov, K. Vutova, T. Nikolov and E. Georgieva
- C. Karcher and Y. Kolesnikov
- K. B. Thakur, G. K. Sahu, S. J. Gaur, R. C. Das, A. K. Tak, R. A. Patankar, G. K. Bhowmick, K. G. Manohar, B. N. Jagatap and N. Venkatramani
- D. Utu, W. Brandl, G. Marginean, I. Cartis and V. A. Serban
- E. Koleva and G. Mladenov
- J. Dora, J. Felba and W. Sielanko
- G. Mueller, V. Engelko, A. Weisenburger and A. Heinzel
- D. Martin, E. Cirstea, D. Ighigeanu, G. Craciun, C. Oproiu, H. Iovu, G. Marin, N. Iacob and M. Nemtanu
- A. I. Korchagin, N. K. Kuksanov, A. V. Lavrukhin, S. N. Fadeev, R. A. Salimov, S. P. Bardakhanov, V. B. Goncharov, A. P. Suknev, E. A. Paukshtis, T. V. Larina, V. I. Zaikovskii, S. V. Bogdanov and B. S. Bal'zhinimaev
- D. Ighigeanu, D. Martin, E. Zissulescu, R. Macarie, C. Oproiu, E. Cirstea, H. Iovu, I. Calinescu and N. Iacob
- D. I. Martin, I. Margaritescu, E. Cirstea, I. Togoe, D. Ighigeanu, M. R. Nemtanu, C. Oproiu and N. Iacob
- I. V. Antonova, A. Misiuk, C. Londos, B. Surma, S. A. Smagulova, A. Bukowski, W. Jung and A. Barcz
- A. Misiuk, B. Surma, J. Bak-Misiuk, I. V. Antonova and S. A. Smagulova
- S. Sabchevski, T. Idehara, M. Glyavin, I. Ogawa and S. Mitsudo
- C. C. Wright, R. A. Stuart, J. Lucas, A. Al-Shamma'a and C. Petichakis
- C. Petichakis, Y. S. Tan, R. A. Stuart and A. I. Al-Shamma'a
- 429 Oxygen removal during electron beam drip melting and refining
- 437 Electromagnetic control of convective heat transfer during electron beam evaporation: model experiments
- 443 Integrated atom density measurement in a zirconium atomic beam generated using a high-power strip electron beam source by diode laser absorption technique
- 451 Morphology and phase modification of HVOF-sprayed MCrAlY-coatings remelted by electron beam irradiation
- 457 Signal formation analysis of the electron beam current distribution measurements
- 463 A new generation of power supplies for electron beam welding machines
- 469 Surface alloying by pulsed intense electron beams
- 475 Polyelectrolytes derived from electron beam-induced polymerization
- 485 Production of silver nano-powders by electron beam evaporation
- 493 SO₂ and NO_x removal by electron beam and electrical discharge induced non-thermal plasmas
- 501 Application of accelerated electron beam and microwave irradiation to biological waste treatment
- 507 Pressure-induced formation of electrically active centres in irradiated silicon: comparison of electron and neutron irradiation
- 513 Effect of enhanced pressure during annealing on the creation of defects in electron-irradiated silicon
- 519 Modelling and simulation of gyrotrons
- 527 Design and construction of a table top microwave free electron maser for industrial applications
- 533 The effect of a gap between dielectric and waveguide on the dispersion relation of the Čerenkov device

- V. Vassileva, G. Mladenov, K. Vutova, T. Nikolov and E. Georgieva
- C. Karcher and Y. Kolesnikov
- K. B. Thakur, G. K. Sahu, S. J. Gaur, R. C. Das, A. K. Tak, R. A. Patankar, G. K. Bhowmick, K. G. Manohar, B. N. Jagatap and N. Venkatramani
- D. Utu, W. Brandl, G. Marginean, I. Cartis and V. A. Serban
- E. Koleva and G. Mladenov
- J. Dora, J. Felba and W. Sielanko
- G. Mueller, V. Engelko, A. Weisenburger and A. Heinzel
- D. Martin, E. Cirstea, D. Ighigeanu, G. Craciun, C. Oproiu, H. Iovu, G. Marin, N. Iacob and M. Nemtanu
- A. I. Korchagin, N. K. Kuksanov, A. V. Lavrukhin, S. N. Fadeev, R. A. Salimov, S. P. Bardakhanov, V. B. Goncharov, A. P. Suknev, E. A. Paukshtis, T. V. Larina, V. I. Zaikovskii, S. V. Bogdanov and B. S. Bal'zhinimaev
